

Samsung Galaxy A5 (2016) Back Cover Replacement

This guide shows you how to replace the back cover of your Galaxy A5.

Written By: Tobias Isakeit

INTRODUCTION

Use this guide to replace the back cover of your Galaxy A5.

TOOLS:

- [iOpener](#) (1)
- [iFixit Opening Picks set of 6](#) (1)
- [Plastic Cards](#) (1)

PARTS:

- [Tesa 61395 Tape](#) (1)
-

Step 1 — Back Cover

i Start by switching off your phone.

- Take an [iOpener](#) to heat up and soften the glue behind the back cover.
- With a suction handle lift the back cover to insert an opening pick.

Step 2

- Slide the pick up to the middle to separate the back cover from the frame.
- Insert a second opening pick and move around the right corner along the bottom and around the left corner.

Step 3

- Take another opening pick and continue towards the top corner.
- Here you want to use one more pick for the last part at the top.

Step 4

- Insert a plastic card at the bottom and slide it underneath the back cover.

Step 5

- [Heat up the back cover](#) once again so you can slide the plastic card towards the top.
 Always take a peek underneath the back cover to not damage any parts like the NFC antenna.
- Move the plastic card until you reach the camera bump. Now slowly lift up the back cover and finally remove it.
-  Be sure to remove any residue from the glue and apply new adhesive when reassembling.

To reassemble your device, follow these instructions in reverse order.
